Paying for your private dental care

The practice offers a number of different payment options and it may be possible for the treatment to be paid for in stages. Just ask at reception for further details or look on our website: www.the-orthodontic-centre.co.uk.

Our private fees are based on an hourly rate which covers our practice expenses and allows us to provide a high standard of care and service to our patients.

Please note that NHS charges apply where NHS appliances are lost or broken beyond repair.
